

LTLEIF

UPCOMING RELEASE: "Shadow on the Brim / Rough Beasts"
Out June 6, 2016 on The CYOR

A dog chasing the sun! With these new albums L.T.Leif stays wise, wild, wide. This is folk music written by mystical creatures and listened to floating on our backs in cool water. Features tender strings, deep drones, synth lines noisy and catching, and a voice that's pure, transparent warmth.

L.T.Leif is based out of Calgary, Alberta. She has found many admirers, from K Records maestro Calvin Johnson, who hand-picked her for a compilation presented by The Believer Magazine, to Canadian indie veteran Woodpigeon, who recruited her for the international pop collaboration Embassylights. Past bands include The Consonant C, HexRay, and OK JAZZ.
